hello

Job Applied For

User Experince Researcher & Designer

Bio/Goals

I'm focused on creating meaningful experience through design. Also believe in approaching every question individually, combining various quantitative and qualitative methods to interpret human behaviours. Good as design thinker, Product designer, experience strategist, generative artist and human loving introvert. I've collaborated with a diverse group of product teams to create human centered product.

Apart from this i really love mountains, biking, hiking, gadgets and exploring technogies. I enjoy seeing things from a fresh perspective :)
